Summary

MERN Stack Developer focused on building AI-integrated full-stack applications, with hands-on experience using LLM APIs (Groq/Llama 3.1), RESTful architecture, and and deploying end-to-end projects.

Technical Skills

Programming Languages: C++, JavaScript, Python
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js
Database: MongoDB, MySQL
Version Control Tools & IDE: Git, GitHub, VS Code, Postman

Experience

MERN Stack Intern **December 2025 – January 2026**
Indian Institute of Technology, Ropar *Tools Used: React.js, MongoDB, Express.js, Node.js*

- Completed an intensive MERN Stack training program, gaining hands-on experience in full-stack web development.
- Gained exposure to real-world MERN development by supporting a polling module feature under senior developers.

Projects

Hyperframe App | *React.js, MongoDB, Node.js, Express.js*

- Developed an AI-powered video generation platform using React, Node.js, Express, and MongoDB, converting natural language prompts into video workflows.
- Integrated the Groq API (Llama 3.1) and GSAP to generate AI-driven animation timelines with real-time preview capabilities.

ManaTyping | *MongoDB, Express.js, React.js, Node.js*

- Built a privacy-first writing analytics platform using the MERN stack, enabling real-time visualization of typing behavior without storing or analyzing written content.
- Implemented behavioral analytics to measure typing rhythm, thinking pauses, and abnormal input patterns using timestamp and keystroke event data.

Kisan Mitra | *Python, FastApi, Vanilla JS* **Live**

- Developed a responsive frontend for an AI-powered agriculture assistant using Vanilla JavaScript, designed with a numpad-style interface to improve accessibility among rural users.
- Integrated the Groq LLM API to deliver real-time farming guidance and agricultural recommendations through an intuitive chat interface.
- Deployed the application on Render and collaborated on backend integration using FastAPI and Uvicorn.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering **Expected 2027**
Guru Nanak Dev Engineering College, Ludhiana *CGPA: 7.55*

Senior Secondary (Class XII) **Completed 2023**
Tagore International School | CBSE *Percentage: 89.6%*

Certifications

- **Getting Started With Competitive Programming | NPTEL (2025):** Certified with Elite Silver grade.
- **Infosys Python Foundation Certification (2024):** Successfully completed the Python Foundation certification.
